Objective

Highly analytical individual with strong apt for learning and collaborative skills.
Looking to obtain a Machine Learning Engineer role, to utilize prior education
and experiences.

Experience

Accenture Solution, Vikhroli - *Web Developer*
APRIL 2019 - PRESENT

- Design and Develop user-friendly website and fixing existing using AEM.
- Regular exposure to business stakeholders and executive management to apply expertise to many interesting technical problems

Projects

Pets Breed Classifier -

- Create a classifier capable of determining a pet's breed from a photo of 37 category pet dataset. The images have large variations in scale, pose and lighting.
- **Skills**: Pytorch, Transfer Learning, Image Classification, Resnet

Fruit Images for Object Detection -

- To build an object detection model to localize 3 different fruits: Apple, Banana and Orange in an image.
- **Skills**: Pytorch, Pillow, Faster RCNN, Flask

Skills

Python, Flask, Machine learning, Deep Learning, Computer Vision, PyTorch, Keras, Tensorflow

Education

Mumbai University, Santacruz - *M.Sc IT*
NOVEMBER 2021 - PRESENT
Artificial Intelligence specialization

Mithibai College, Ville Parle - *B.Sc Mathematics*
APRIL 2015 - MARCH 2018
Algebra, Calculus, Discrete Mathematics, Numerical Analysis

Certificates:

Imarticus Learning, Mumbai - *Data Science*
SEPTEMBER 2018 - JANUARY 2019
Hands on experience of leading analytics tools Python, R, Tableau and SAS

Hackerrank - *Python*
August 2020

Jovian AI - *Deep Learning with PyTorch*
July 2020

Additional Activities:

Mini MTTS 2016: Mathematics Research Training Workshop
NCC : 1 Maharashtra BN NCC, Mumbai

Interest:

Backpacking, Reading, Science and Technology, Adventure Activities
